## Professional Experience

### DAZN, Amsterdam

Frontend engineer

July 2019 – present

Highloaded media streaming website.

[AWS](#) [Terraform](#) [Node](#) [React](#) [Mobx](#) [Redux](#) [Webpack](#) [Jest](#)

### KLM Royal Dutch Airlines, Schiphol

Senior frontend developer

Feb 2017 – June 2019

Real time fault tolerant mobile application used by 330 KLM mechanics at Schiphol airport to perform between-the-flight aircraft maintenance. The application displays up-to-date KLM's fleet schedule and towing information, helps team leaders to manage teams, and provides the scope of work for mechanics.

Responsibilities:

- Incorporate business requirements into biweekly product increments

Achievements:

- Developed and launched product from the scratch
- Clean record of critical issues in 2018
- [Open source library](#) as a solution to common Ionic's problem. 450 weekly downloads in 2018

[Angular](#) [Ionic](#) [Redux](#) [RxJS](#) [Typescript](#) [SASS](#) [Webpack](#) [Jest](#)

Review: [Önder Ceylan, Tech Lead](#)

### Knab hypotheek, Amsterdam

Senior frontend developer

Jun 2014 – Feb 2017

Core front end developer of a fully automated mortgage advice system.

Started as a backend developer and eventually transferred to the frontend.

Responsibilities:

- Developed new functionality

- Conducted job interviews

#### Achievements:

- Developed flexible registration process and 16 tools intended to gather detailed customer's legal and financial data
- [Component library](#) as a result of collaboration with the design team
- Introduced test driven development process with Karma and test automation with Protractor

AngularJS Karma Protractor SASS Gulp Bootstrap PHP Symfony MySQL PHPUnit AWS Heroku

Review: [Mark Sizoo, Tech Lead](#)

## upwork.com, Mountain View, USA

Senior frontend developer

Oct 2012 – Jun 2014

Core frontend developer of the world's #1 freelance marketplace.

#### Responsibilities:

- Developed A/B tested functionality for company's crucial business component: Job Posting Engine
- Conducted job interviews
- Facilitated onboarding process

#### Achievements:

- Developed and successfully launched job post engine: highly-configured job posting and rendering tool
- Introduced test driven development process into the organization's development flow

Javascript jQuery qUnit Grunt Selenium Compass/SASS PHP Zend Postgres

Review: [Sean Kane, Vice President of Engineering](#)

## Career insights

### 2010 – 2012

Full stack freelancer (PHP, JS, SQL, Linux, CI/CD).

Successfully completed multiple small and middle-sized projects. Received [positive feedback](#) from all of my clients. Reviews are available [here](#). Must be registered user to read all the reviews. Sorry.

### 2005 – 2010

Junior/middle full-stack developer (PHP, JS, SQL, Linux).

Significant experience was acquired while working on [GameWatcher](#) and [RecordNerd.com](#).

### 2000 – 2003

Worked as visual designer for a local TV channel. Acquired passion for objects composition, color matching and animation.

## Education

Masters degree in Computer Engineering. Sevastopol State Technical University [2002 – 2007]

## Certifications

-  [AWS Certified Solutions Architect - Associate](#) - Jan 18, 2019
-  [Professional Scrum Master I](#) - Apr 2, 2018
-  [React Nanodegree](#) - Dec 27, 2017

-  Zend Certified Engineer PHP 5.3 - Jan 24, 2011

## Additional experience

- Most of my interests and hobbies revolve around GitHub and open source community.
