Additional experience

A complete list of side/hobby projects: <https://github.com/sneas>.

Some cool projects:

Component Library

<https://github.com/sneas/component-library>

The easiest way to create HTML component library for existing website.

ES6 NodeJS SASS

A solution to CORS problem of Ionic and WKWebView

<https://github.com/sneas/ionic-native-http-connection-backend>

This project's become quite popular since Ionic made WKWebView a default web container.

Angular 4 Typescript RxJS Cordova

Namespaced Bootstrap

<https://github.com/sneas/bootstrap-sass-namespace>

Non-conflicting bootstrap integration. Consider using this project if Bootstrap has to be applied partially. ie to particular div of a page.

Bootstrap SASS
