Professional Experience

KLM Royal Dutch Airlines, Schiphol

Senior frontend developer

Feb 2017 – present

Real time fault tolerant mobile application used by 330 KLM mechanics at Schiphol airport to perform between-the-flight aircraft maintenance. The application displays up-to-date KLM's fleet schedule and towing information, helps team leaders to manage teams, and provides the scope of work for mechanics.

Responsibilities:

Career insights

2010 – 2012

Full stack freelancer (PHP, JS, SQL, Linux, CI/CD).

Successfully completed multiple small and middle-sized projects. Received extremely positive feedback from all of my clients. The feedback is available at [here](https://www.upwork.com/o/profiles/users/_~01752134695731685e/) (https://www.upwork.com/o/profiles/users/_~01752134695731685e/).

2005 – 2010

Junior/middle full-stack developer (PHP, JS, SQL, Linux).

Significant experience was acquired while working on [GameWatcher](#) and [RecordNerd.com](#).

2000 – 2003

Worked as visual designer for a local TV channel. Acquired passion for objects composition, color matching and animation.

Education

B.S. degree in Computer Engineering. Sevastopol State Technical University [2002 – 2007]

Certifications

- [Professional Scrum Master I](#) - Apr 2, 2018
- React Nanodegree - Dec 27, 2017

Projects accomplished:

- <https://github.com/sneas/myreads> React
- <https://github.com/sneas/readable> React Redux
- <https://github.com/sneas/mobile-flashcards> React Native Redux
- Zend Certified Engineer PHP 5.3 - Jan 24, 2011

Additional experience

- Most of my interests and hobbies revolve around GitHub and open source community.
A complete list of side/hobby projects: <https://github.com/sneas>
- Development blog: <https://sneas.github.io/blog>
- Active member of Russian-speaking Q&A development community: <https://toster.ru/user/search>. Over 100 answers. 54% solutions.
